An act to amend Section 35010 of the Education Code, relating to school districts.

LEGISLATIVE COUNSEL'S DIGEST

SB 138, as introduced, Huff. School districts.

Existing law establishes the system of public elementary and secondary schools in this state, and provides for their funding and governance. Existing law establishes school districts throughout the state to administer the public elementary and secondary schools within their respective jurisdictions. A provision of existing law requires that each school district be under the control of a board of school trustees or a board of education, and further requires the governing board of each school district to prescribe and enforce rules not inconsistent with law, or with the rules prescribed by the State Board of Education, for its own government.

This bill would amend this provision to make a technical, nonsubstantive change.
